

# PRESS RELEASE

Hitec is proud to announce our high voltage, coreless, premium mini servos, the HS-7235MH and HS-7245MH

## HS-7235MH and HS-7245MH High Voltage, Coreless, Premium Mini Servos

Watch out, here they come! Our new high voltage, coreless HS-7235MH and HS-7245MH servos deliver exceptional speed and torque in a compact package. Built with an efficient coreless motor optimized for 7.4V operation and heavy-duty metal gear train with dual ball bearings, these high-end mini servos deliver unbridled performance.

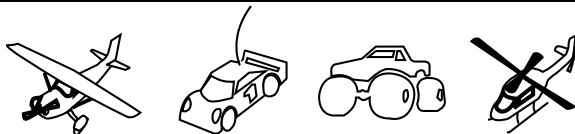

Whether you are flying mid-size gas and electric airplanes, 500-550 electric helis, or driving 1/12th scale on-road racers and 1/18th scale rock crawlers, the lightning speed and full-size muscle of these servos will make you the master of your RC domain.

Exceeding Your Expectations  
Is What We Do!

Estimated Street Price: \$91.29
